# Welcome

I'm thrilled that you are considering working with me to transform your house into a beautifully organized home. Spend some time reviewing this guide. If, after reading this, you feel like we'd be a good match, let's set up a time to discuss an organizing plan.

## LIVABLE ORGANIZATION FOR BUSY FAMILIES

I'll help you and your family discover your personal organizing style and design an organizing system that will work with that style, so you can maintain the organization with minimal effort. We will focus on functional but beautiful systems for a home that grows with your family- and even your kids can help keep tidy!

# Free Consultation

Before I get into what we will do at your free consultation, I have a favor to ask you: please do NOT clean or tidy before our meeting- I need to see what is working and what is not, and get a feel for your natural organizing style. Remember, I am not a guest. I am here to diagnose what is working and what is not. :)

## READY TO GET STARTED?

First, I will have you show me two spaces: the space that works best in your home and the pain spot that you want me to work on. Then, I will ask you some questions to get a feel for your style & your vision for the room. Then we will take some measurements & come up with a plan for your space.

This meeting should take about 30-45 minutes.

# Guided Declutter

People often think they need to “get organized”, when in reality they need to declutter first. The two things are separate actions, and BOTH are needed. What is clutter? Simply put, clutter is things you are not loving or using. You have to remove the clutter before you organize the things you DO love & use. I will guide you through the decluttering process as simply & painlessly as possible. I will even take your donations out for you. The time can vary depending on the space and how much you need to declutter, but most rooms can be decluttered in 2-4 hours.

## LET'S MAKE SPACE FOR THE LIFE YOU LOVE

Decluttering can feel overwhelming. We will start with what is easiest, take breaks as you need to, and work through emotional issues that can come up as we go. I am here to help!

# Custom Organization

Once we have decluttered, I will design and implement an organizing system that works with your natural organizing style. You will have complete control over the design of your space.

## LIVABLE ORGANIZATION FOR YOUR PERSONAL STYLE

After discussing your vision and needs for your space, you can go and have a date night, alone time, even run errands if you need to while I organize your space. You will come home for the big reveal (you can pretend to be on a TV show if you like). I will give you a tour of your new room and give you some practical tips for maintenance before leaving you to enjoy your room. You will hear from me in a couple of weeks to check in and see if you have any questions.

# Online Organizing Package

I offer an online organizing package that offers you support with decluttering and organizing your home. Through Zoom, we will discuss the issues you are having in your home and come up with a detailed and customized organizing plan that works with your style.
